

DINESH GAIKWAD

SOFTWARE DEVELOPER

To contribute to a forward-thinking organization where I can apply my technical expertise and problem-solving skills to deliver impactful solutions. I am a results-oriented, self-motivated professional with a strong drive for continuous learning and growth. Eager to tackle new challenges and collaborate with teams to achieve shared goals while advancing organizational success.

7083892863 dineshgaikwad.skn.comp@gmail.com

EDUCATION

B.E. - Computer Engineering	8.13 cgpa	2021 - 2025
Shrimati Kashibai Navale College Of Engineering, Pune		
Savitribai Phule Pune University		
Higher Secondary Certificate (HSC)	70.83 %	2019 - 2021
Jai Bajrang Junior College, Ahmednagar		
Maharashtra State Board of Secondary and Higher Secondary Education		
Secondary School Certificate (SSC)	85.80 %	2019
Om Gurudev English medium Gurukul, Kopargaon		
Maharashtra State Board of Secondary and Higher Secondary Education		

HIGHLIGHTS

- Experience in full-stack application development using C, C++, Java, Python, and JavaScript.
- Proficiency in data structures and algorithm design for optimized performance.
- Strong ability in writing automation scripts using Python.
- Mobile app development experience in Android.
- Expertise in frontend development using ReactJS, Angular, and TailwindCSS.
- Backend development experience with Node.js, FastAPI, Django, and PHP.
- Hands-on experience with RESTful API development and database management.
- Understanding of operating system internals, memory management, and process scheduling.
- Strong analytical and problem-solving skills, capable of tackling complex software challenges.

TECHNICAL SKILLS

- **Programming Languages :**
 - 1. Procedural language : C Programming
 - 2. Object Oriented Programming : C++ Programming, Python, Java
 - 3. Virtual Machine based Programming : Java Programming
 - 4. Scripting language : JavaScript
 - 5. Markup & Query Languages : SQL, HTML, CSS
- **Web Technologies :** HTML/HTML5, CSS2/CSS3, JavaScript, TailwindCSS.
- **IDE & Tools :** Visual studio Code, Sublime Text.
- **Web Servers :** Apache Tomcat 8.0.22, WebLogic 12.2.1, IBM WebSphere 8.5.
- **Version Control :** GIT, GitHub.
- **Database :** MySQL, MongoDB, PL/SQL (Oracle).
- **Operating System :** Windows, Linux (Ubuntu), macOS.
- **Frameworks/Libraries :** ReactJS, Django, AngularJS.
- **Testing techniques :** Unit Testing, Debugging Tools (Chrome DevTools).
- **Methodologies :** Agile, Waterfall.
- **Build & CLI Tools :** Angular-CLI, Node.js (npm, yarn).
- **Cloud & Deployment :** AWS, Firebase
- **Environments :** Windows 7/8/10, Ubuntu 18.04, Mac os.

● Tesla Academy

10/2024 - PRESENT

Developed Tesla Academy, an innovative educational platform designed to provide students with a personalized and adaptive learning experience. Built using ReactJS, TailwindCSS, Python-FastAPI, and MongoDB, the platform offers seamless course management, progress tracking, and interactive learning tools. The system is designed with separate admin and user interfaces, ensuring smooth content management and student performance monitoring. Admins can create, update, and manage courses, while students can track their learning progress through a user-friendly dashboard. The platform prioritizes scalability, responsiveness, and high performance, making it an effective e-learning solution.

Technologies

- React-JS, TailwindCSS, HTML, JavaScript, Python-FastAPI, MongoDB

● The Fit Club

03/2024 - 06/2024

Developed FitClub, a comprehensive fitness management platform that enables users to create and follow customized workout routines while tracking their progress. The system features separate admin and user dashboards, where admins can manage workout plans, nutrition guides, and user progress, while users can access personalized fitness routines, log workouts, and track improvements over time. Integrated EmailJS for secure, backend-free contact functionality, ensuring smooth communication between users and fitness experts. The application delivers a seamless, interactive user experience, helping users stay committed to their fitness goals.

Technologies

- React-JS, HTML, CSS, JavaScript, Emailjs

Project Link : <https://fitclub-1my.pages.dev/>

● My Portfolio

04/2024 - 07/2024

Designed and developed a modern, fully responsive portfolio website to showcase my skills, projects, and experience in web development. The site features a clean, visually appealing UI, built using ReactJS, HTML, CSS, and JavaScript, ensuring a smooth, user-friendly browsing experience. It highlights detailed project descriptions, technical expertise, and an integrated contact form powered by EmailJS for direct communication. The portfolio demonstrates my passion for coding, problem-solving, and delivering high-quality, functional applications. This portfolio serves as a testament to my passion for coding, problem-solving, and delivering high-quality, scalable, and user-friendly applications, helping potential clients or recruiters get a comprehensive understanding of my work.

Technologies

- React-JS, HTML, CSS, JavaScript, Emailjs

Project Link : <https://dineshgaikwad.pages.dev>

● Customized Virtual File System (CVFS)

01/2025 - 02/2025

Developed a Customized Virtual File System (CVFS) using C++ and Standard Template Library (STL) to simulate a virtual file storage solution. The system provides an intuitive, console-based interface that supports file operations such as creating, reading, writing, deleting, and organizing files within a structured directory system. Advanced features include file-level security, efficient memory allocation, and optimized storage management, making it a scalable and robust solution for handling large datasets. By leveraging OOP principles (encapsulation, inheritance, and polymorphism), the project ensures high code reusability and flexibility. This project is particularly useful for low-resource environments, where a full-fledged file system might not be feasible. It serves as a strong foundation for advanced file system management and showcases my ability to work with memory management, data structures, and low-level file operations in C++.

Technologies

- C++, STL, Object-Oriented Programming, File Handling, Memory Management

● **Car Rental System**

03/2024 - 06/2024

Designed and implemented a Car Rental System using Java and Object-Oriented Programming (OOP) principles, with a focus on scalability and maintainability. The system provides a user-friendly console interface for managing car rentals, tracking availability, calculating dynamic rental pricing, and maintaining rental history records. It utilizes encapsulation, inheritance, and polymorphism to ensure a modular and reusable code structure. This project demonstrates real-world problem-solving skills, applying software engineering best practices to deliver an efficient, structured, and scalable rental management solution. It can be further enhanced by integrating a database for persistent storage, a payment gateway for online transactions, or a web-based UI for a fully functional car rental service.

Technologies

- Java, Object-Oriented Programming

 TECHNICAL HIGHLIGHTS

- Expertise in frontend development using ReactJS, HTML, CSS, JavaScript, and TailwindCSS.
- Proficient in server-side development using NodeJS, FastAPI, and Django.
- Hands-on experience with Amazon Web Services (AWS) and Firebase for cloud-based applications.
- Strong knowledge of MongoDB and NoSQL databases for scalable data management.
- Familiarity with unit testing frameworks like Jest, Mocha, and Cypress for frontend and backend applications.
- Knowledge of NoSQL database as MongoDB.
- Experience in containerization using Docker, and deployment on AWS, Firebase
- Capable of handling high-performance web applications, ensuring scalability and maintainability.

 BASIC INFORMATION

Full Name : Dinesh Dnyaneshwar Gaikwad
Gender : Male
Date of Birth : 12 Sept 2003
Father Name : Dnyaneshwar Mohanrao Gaikwad
Marital Status : Single
Nationality : Indian
Known Languages : English, Hindi, Marathi
Phone Number : +91-7083892863
Email : dineshgaikwad.skn.comp@gmail.com
GitHub : <https://github.com/DineshDGaikwad>
LinkedIn : <https://www.linkedin.com/in/dinesh-gaikwad-777917269>

Current Address:
Ganesh Vandan, Opposite to Tulip Hostel,
Opposite to Sinhgad law college, ambegaon bk, pune,
Pune,
Maharashtra, India - 4311046
Permanent Address:
Near Pune-Aurangabad Highway,
Gangapur, Tal Gangapur, Aurangabad,
Maharashtra, India - 431110

With a relentless drive for excellence and a passion for innovation, I am committed to leveraging my skills and knowledge to create impactful solutions and contribute meaningfully to the success of any organization I am a part of.

- Dinesh Gaikwad
